

MY LOCAL SMALL BUSINESS

Get found. Get booked. Get paid.

The all-in-one platform helping local small businesses build an online presence, win work, and grow — all in one place.

THE PROBLEM

Local businesses are stitched together from too many tools

Scattered tools

A website here, a booking app there, invoicing somewhere else — nothing talks to each other.

Costly stack

Separate subscriptions add up fast, squeezing already-thin margins for small operators.

Hard to be found

Great local businesses stay invisible online, losing customers to bigger, louder brands.

No time to run it

Owners are the marketer, admin and accountant — with no hours left to do all three well.

THE SOLUTION

One home for a local business — **online.**

My Local Small Business brings presence, bookings, payments and customers together in a single, simple platform — built for the way local businesses actually work.

A profile that gets you found

A polished local listing so customers can discover and trust you.

Bookings, built in

Let customers book your time and services without the back-and-forth.

Get paid easily

Send e-invoices and take payment for products and services.

Win new work

Get matched to local people looking for exactly what you offer.

THE OPPORTUNITY

A huge, underserved market on every high street

5.6M

UK small businesses (0–49
staff)

99.2%

of all UK businesses are
small

16.9M

people employed by UK
SMEs

Nearly every one of them needs to be found, booked and paid — yet most still lack a single, affordable tool built for them. That gap is our opportunity.

HOW IT WORKS

A two-sided local marketplace

For local businesses

- ✓ Create a profile and get discovered locally
- ✓ Take bookings and send e-invoices
- ✓ Reach customers with built-in newsletters
- ✓ Receive and quote on new job requests

For local people

- ✓ Find trusted local businesses fast
- ✓ Book services and buy with confidence
- ✓ Post an event or project you need help with
- ✓ Compare quotes and pick who to hire

THE ROADMAP

Four stages from directory to local economy

1

Presence

Free tier: local profiles and core features so businesses get found online.

LIVE NOW

2

Paid tier

30-day trial + subscription: bookings, newsletters and extended tools.

COMING

3

Payments

Sell products and bill services via e-invoices — we take a small cut.

COMING

4

Marketplace

The public posts events; matched businesses send quotes and timescales.

COMING

Two revenue streams that grow with our users

Subscriptions

A free tier to grow the base, plus a paid membership (with a 30-day trial) unlocking bookings, newsletters and premium features.

Transaction fees

When members sell products or bill services through the platform, we take a small cut of each payment.

Aligned incentives: we only grow when our members do. More bookings and sales mean more value — and more revenue for the platform.

WHY NOW

The timing has never been better

Customers search local first

People increasingly discover and book neighbourhood businesses on their phones.

Small tools, big expectations

Owners now expect one simple app to run everything — not five disconnected ones.

Support-local momentum

Communities actively want to spend with independents; MLSB makes that easy.

WHY US

Built for local, all in one place

All-in-one

Presence, bookings, payments and lead-gen in a single platform — not a patchwork.

Hyper-local

Designed around real neighbourhood demand and the way small businesses actually trade.

Grows with you

Start free, upgrade when ready. The platform scales as the business does.

THE ASK

Help us build **Stage 2** and beyond

We're seeking grant funding, mentorship and early partners to accelerate the paid tier — bookings, newsletters and payments — and grow our base of local businesses.

Fund the build

Ship Stage 2 features faster

Mentorship

Guidance to scale the right way

Early partners

Grow our local business base
